

# Resource Recycle & Reuse

Project	Start	Completion	
Incheon Cheongna Automatic Clean net	Apr. 2008	Jun. 2011	Scope: Design, Facility supply, Construction, Test-run Pipeline: 45.7km Collection sites: 5 units Inlets: 2,013 units
Yangsan Sewage Sludge Treatment facility	Feb. 2008	Dec. 2009	Scope: Design, Facility supply, Construction, Test-run Capacity: 60m <sup>3</sup> /day x 2 units
Paju Unjeong Automatic Waste collecting facility	Sep. 2007	Aug. 2012	Scope: Design, Facility supply, Construction, Test-run Collection sites: 4 units Inlets: 1,282 units
Suwon Sewage treatment facility	Jun. 2007	Nov. 2011	Scope: Design, Facility supply, Construction, Test-run Capacity: 450m <sup>3</sup> /day
Yongin Heungdeok Automatic Clean net	Sep. 2006	Mar. 2009	Scope: Design, Facility supply, Construction, Test-run Collection sites: 1 unit Inlets: 425 units
Goyang Incinerator	May 2006	Aug. 2010	Scope: Design, Facility supply, Construction, Test-run Pyrolysis and melting facility: 150ton/day x 2 units Recycling facility: 50ton/day
Yangsan Recycling facility	Oct. 2004	Jan. 2008	Scope: Design, Facility supply, Construction, Test-run Pyrolysis and melting facility: 100ton/day x 2 units Recycling facility: 80ton/day x 1 unit
Metropolitan Sludge Solidification facility for reclaimed area	Dec. 1996	Oct. 1998	Scope: Design, Facility supply, Construction, Test-run Capacity: 75ton/day
Gwangyang Incinerator	Dec. 1993	Jan. 1996	Scope: Design, Facility supply, Construction, Test-run Capacity: 90ton/day
